DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,3 are rejected under 35 U.S.C. 102(b) as being anticipated by Kamlukin et al. (3,805,421).

Kamlukin et al. discloses a snow removal machine including an auger 12, a blower, a drive shaft, a chute, a plurality of supporting members 22,25, a plurality of elastically deformable throwing-up blades 16, and a vacant space (between members 26 & 16 as shown in figures 2 & 3).

Allowable Subject Matter

Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art of record discloses various snow removal machines.
